SUMMARY

Bachelor of Business (Hons.) Marketing candidate with hands-on experience in digital marketing, customer enquiries, email outreach, content production, and community management for 200,000+ members. Combines data-focused execution, bilingual communication, and audience engagement across Facebook, Discord, email, WhatsApp, and phone.

SKILLS

Marketing & Customer: Digital Marketing | Email Marketing | Campaign Execution | Content Production | Customer Enquiries | Bilingual Communication (Bahasa Melayu/English)
Community & Social: Community Management | Social Media Strategy | Moderation | Audience Engagement | Event Management | Facebook | Discord | Esports
Tools & Technical: Canva | Mail Merge | HTML Email Templates | Data Cleansing | QA Testing | Bug Reporting | Generative AI (Claude, Gemini, DALL-E) | JavaScript | Progressive Web Apps (PWA)

EXPERIENCE

Operational Support (OSS) Intern | SIRIM Academy Sdn Bhd | April 2026 - July 2026

Shah Alam, Selangor

- Handled 100+ weekly corporate enquiries about ISO training and Certification of Persons (CoP) programmes across email, WhatsApp, and phone; drafted bilingual Bahasa Melayu/English responses and directed clients to the appropriate programme officers during peak intake.
- Cleaned and deduplicated a 10,000+ contact training database through structured batch processing to improve data quality.
- Planned and executed email campaigns for certification schemes, built branded HTML templates with corporate signatures, and used Mail Merge to support outreach to 10,000+ contacts.
- Created on-brand social media posters and multi-scheme brochures in Canva using Claude, Gemini, and DALL-E while maintaining brand consistency.

Community Manager (Contract) | Esports Star Pte. Ltd. & Independent Projects | April 2025 - Present

Singapore / Remote

- Lead community and social media strategy for 200,000+ members across major gaming titles on Facebook and Discord.
- Moderate a 100,000+ member community with a team, enforce guidelines, and review reports.
- Partner with international game developers on QA testing, submit detailed bug reports, and facilitate player-feedback sessions.

PROJECTS

PoE2 Crafting Simulator | Independent Project | 2026

github.com/Ri-el/Ri-el.github.io

- Developed a dependency-free browser-based Path of Exile 2 crafting emulator in HTML, CSS, and JavaScript with responsive layouts, offline/PWA support, real-time state handling, undo/redo, and local save/load functionality.
